

Hands-on session #2 – Asking better evaluation questions

1. Based on the analysis of programme theory for the “Green and digital transitions in SMEs” axis (PA 11) you built in hands-on session 1:
 - **please identify interesting evaluation questions**
 - **select the 4 most interesting ones**
 - Write them on the dedicated cards and **position them** along the theory of change
2. Take one of your effectiveness questions, **which success criteria** (sub elements to be checked to ensure the successful contribution of your intervention to the change) **would you propose ?**
